BY TELEFAX

Dear Robert,

Following our telephone conversation on October 17, I contacted Dr. Kari Syrjanen and arranged a meeting with him at 9 a.m. November 1st in Helsinki. Dr. Syrjanen's schedule had changed since his last letter to me, and he said it would be more convenient for him to meet in Helsinki rather than travel to London as he first suggested.

Dr. Syrjanen mentioned that he wanted to discuss possible research support by the tobacco industry, and he stated that he had sent you a copy of the research protocol and proposed budget he originally submitted to Lab Systems. Dr. Syrjanen said that he sent it to you for translation into English, and he urged me to obtain a copy of the research proposal and budget prior to our meeting on November 1. I told Dr. Syrjanen that while it was acceptable to place the subject of potential tobacco industry research support on our agenda for the November 1 meeting, I wanted to focus on a detailed discussion of his findings regarding the pathology materials and tests in Aho and his impressions and opinions based on those findings.

I would like to speak with you and Ed Jacob some time after the October 26 Aho hearing but before my meeting with Dr. Syrjanen on November 1 to obtain any additional information concerning the discussions that have been held on possible tobacco industry support for Dr. Syrjanen's research as well as to discuss how this issue can best be handled at my meeting with Dr. Syrjanen.
